Subject: Invitation to the May IFMA-New Orleans Chapter Monthly Luncheon

Nathalie,
Mathes Brierre Architects are excited that IFMA has the opportunity to tour Chevron's Covington Facility. Mathes Brierre worked in joint venture with HOK Houston on the interiors portion of the project and are the architect of record for the interiors portion. All three design firms worked collaboratively as a team siting the buildings, establishing the foot print and encouraging the construction of the parking deck rather than surface parking to retain as much green space as possible. We hope that you enjoy the tour.

Will Tregre
